

PNG Institute of Medical Research

The PNGIMR is a statutory organization tasked with conducting medical research into the primary health problems facing the people of Papua New Guinea. The Institute is seeking to recruit at the earliest time possible a highly motivated

Scientific Officer

to be based in IMR's headquarters in Goroka, EHP and work in the frame of a project on Vector Borne Diseases (incl. malaria) and Climate Change.

The position is responsible for coordinating and implementing research activities, incl. community surveys and entomological studies in collaboration with internal and external partners.

Requirement:

- Minimum Bachelors degree in biological sciences, health, or related field
- Experience in project management
- Understanding of Vector Borne diseases is essential
- Excellent organizational and interpersonal skills
- Knowledge of GIS will be an asset
- Able to work independently
- Willingness to travel

The position will be offered on a fixed-term contract. Salary commensurate with experience and qualifications. Accommodation may be provided for external candidates.
